

# EMPOWER

Supporting women in Humanities & Social Sciences to expand their digital & computational skills and networks!

Want to learn new digital technologies and skills to enhance your research? Not sure where to start?

ESCALATOR is creating an online learning community for women in humanities and social science in South Africa.

A programme specifically designed for women in Humanities & Social Sciences in South Africa

## Follow our 8-step plan to learn and grow!

1

Learn about tools across the research lifecycle

2

Review your current workflows (which tools are you using?)

3

Identify tools or practices that you want to learn or improve

4

Become part of a learning community for support

5

Develop and implement your SMART plan for intentional learning

6

Apply what you've learned in your work

7

Share your learning journey with others

8

Continue to learn and grow
