A programme specifically designed for women in Humanities & Social Sciences in South Africa

Are you a researcher or student in Humanities or Social sciences in South Africa? Keen to grow your digital and computational skills but not sure where to start?

On 7 July 2022, **Marissa Griesel** will take us through the ANALYSIS phase of the research life cycle. She will present and give demos on tools that could be useful for analysing data as part of research!

Become part of our community of technology empowered women!
